

Annual Report 2023

Oriental College of Education and Research presents annual report 2023. This academic year was as usual remarkable and overwhelming. This year we have conducted many activities for our student teachers in academics, co-curricular as well as extracurricular.

We at OCER believe that a good teacher will always play an important role in generating good citizens and so the teacher must be equipped with the innovative techniques and strategies of teaching.

Promotion of leadership skills, positive attitude, personality development, confidence, self-reliance, and sensitizing citizens are the main motives in our OCER College. For this we conducted many activities including cultural programs, seminars, workshop, placements, community work, internship, art competitions, sports competitions, annual day, fresher's party, farewell, debates and many more in order to give our students an opportunity to portray themselves at their best.

As per OCER philosophy, there should be an integral formation of teacher trainees for a just and humane society. It will help our teacher trainees to develop a holistic approach towards our society. It is considered as a major step for inculcating sociological and anthropological aspects among our students.
